Explore Our Solutions and Services:

ERP On Demand | Beyond Implementation

Comprehensive solutions for the Protheus ERP, focusing on performance, governance, and customization:

- Implementation and revitalization of key modules: billing, purchasing, inventory, tax, accounting, finance, fixed assets, and contracts;
- Strategic projects for cost management and production process mapping;
- Secure hosting on HLB's proprietary cloud—scalable and highly available.

Software Factory | Custom Solutions

Custom applications tailored to your operations:

- High-performance reports, dashboards, and KPIs;
- Integrations with ERPs, legacy systems, and logistics operators;
- Automated pricing, complex calculations, and process accelerators;
- Scheduled jobs and automated routines for critical tasks.

Technology shaped around your business – not the other way around.

Project Management Office (PMO) | Strategy and Predictability

Governance, control, and efficiency for your projects:

- Team with expertise in Scrum and PMI;
- Methodologies tailored to your context (Agile, Traditional, or Hybrid);
- Full support for technology and business projects;
- Strategic management focused on results;
- Technical and executive-level oversight;
- Scope, timeline, and budget control;
- Value generation as a top priority.

BPM Platform - Fluig | End-to-End Digital Processes

Digitize your processes with efficiency, security, and ERP integration:

- Document management with version control, compliance, and security;
- Smart workflows with automation and system integrations;
- Full traceability and KPI-driven management.

Fluig Solutions | Efficiency at Every Step

Automate processes and boost productivity with integrated solutions:

- Expense Reimbursement: request, approval, and integration with the finance department;
- Procurement Process: request, quotation, approval, and purchase orders integrated with Protheus;
- Invoice Receipt: monitoring and tax/accounting integration with no manual entry.

Automation with Power Automate (Microsoft)

Eliminate repetitive tasks with rule-based RPA:

- Reduce manual effort and eliminate operational errors;
- Free up your team for strategic activities;
- Ensure secure execution through a dedicated server infrastructure.

Ideal for departments such as Finance, Tax, HR, and Compliance.

Power BI | Data-Driven Decisions

Management dashboards and interactive reports focused on:

- Accounting, Finance, Cost Management, and Payroll;
- Operational performance and strategic KPIs;
- Turning data into actionable insights.

Intelligence to support fast and confident decision-making.

Cybersecurity | Strategic Protection

Proactive and preventive protection for your data and operations:

- Support for compliance with ISO 27001, NIST, and other standards;
- Penetration testing for applications, networks, and cloud environments;
- Virtual CISO (vCISO):: a flexible service to strengthen your security strategy.

Turn information security into a competitive advantage.
