Talents HLB – Technical & Operational

We conduct recruitment and selection of technical and operational profiles, seeking talent that will support your business operations.

We analyze candidates according to the requesting company's requirements, identifying professionals from various fields who match the desired profile.

• Talents HLB – Specialists

We recruit middle-level professionals: Analysts, Specialists, and first-level managers across various sectors.

We are committed to finding the best talent to ensure your business's success, with the structure and skilled professionals to deliver solutions that meet your candidate search requirements within the national market.

• Talents HLB – Executive

We also manage the recruitment process for executive-level positions, committed to finding the right talent to make a difference in your business.

We consider all the criteria required by the company and the position throughout the selection process, delivering a tailored service.

We use the best candidate sourcing providers in the country, equipped with advanced technology and artificial intelligence to identify talent quickly and effectively.
